

Borresperse AM 870P

Product Description:

Borresperse AM 870P is a powder ammonium lignosulfonate for use as a general dispersant or binder.

CAS Numbers: 8061-53-8 (ammonium lignosulfonate)

Sales Specifications:

	Minimum	Maximum	Test Method
pH (10% solution)	4.0	6.5	LTFQC-007
% Solids	93.0	-	LTFQC-009

Only active customers are notified of specification changes.

Typical Analysis:**

Chemical Data		Physical Data	
pH	5.0	Color	Brown
% Ammonium	4.1		
% Sodium	0.1		
% Total Sulfur	6.8		
% HPLC Sugars	20		

**The above analyses are not formal specifications and values may change. All values calculated on 100% solids basis.

Storage Stability:

May vary from a few months to several years dependent upon storage conditions.

Compatibility:

Lignosulfonates are compatible with anionic and non-ionic materials, dispersants, wetting agents and most organic and inorganic materials.

Packaging:

Palletized 25 kg bags and 600 kg non-returnable bulk bags.

Lead Time:

Please refer to your LignoTech sales representative.

Safety Data Sheets are available upon request.
